

PharmaForum - 3. November 2010 in Mainz

1. Company

The Novartis Venture Fund, founded in 1996 is a Corporate Venture Fund with two fund concepts. We are eight Managing Directors in Cambridge/MA and Basel/CH. For contact and additional information please visit <http://www.novartis-venturefunds.com>

2. Core Competences

As a team, we invest in early stage private Biotech (e.g. small molecules, biologics, vaccines) and Medtech (e.g. devices, diagnostics) companies with a focus to the US and EU. We have long lasting and broad experience in successfully evaluating and managing these opportunities.

3. Cooperations offered and requested

We offer venture capital equity participation in innovative and private companies in Biotech and Medtech with top management and co-investors at attractive valuations. Whereas we are stage agnostic we focus on early stage opportunities (e.g. preclinical, Series A).
