2. Core competences

A team of experts has joined forces under the umbrella of ASPIRAS to offer pharmaceutical knowhow based on theory and practice, project management knowhow and financial expertise.

The ASPIRAS team is characterised by a long-standing practical experience in pharmaceutical industry and specialist knowhow in pharma and biotechnology. ASPIRAS finalises projects effectively and efficiently and has a broad network of contacts from previous experience. Analytical capability, drive and creativity are further characteristics of the work style of ASPIRAS.

The ASPIRAS offer is aimed at German and international pharmaceutical and biotechnology companies active in the area of pharmaceuticals or diagnostics. Scientists are supported by ASPIRAS for business start-up activities and economic exploitation of their inventions. M&A consultants, venture capital firms and banks can profit from the specialist knowhow of ASPIRAS in the pharmaceutical and biotechnological area.

The economic and scientific evaluation of products, projects and portfolios up to business development are part of ASPIRAS' offer as well as projects regarding a new strategic perspective. ASPIRAS is offering all parts of project management including soft skill aspects. Support in operations and administration and organisational analysis make the product range of ASPIRAS complete.

We are authorized to act in Germany as Qualified Person § 14 AMG (with qualification according to § 15 AMG) and as Information Officer according to § 74a AMG.
